

Purpose of form

Form 04FE005E, School Report, is used to document the child's involvement in public schools while placed in emergency foster care. It helps the CW worker assess the child's educational strengths and needs to determine which require follow-up services.

Instructions

The form is prepared in triplicate by the emergency foster home provider when a child is enrolled in school and updated as appropriate. The form is self-explanatory.

Routing

Both the original and one copy are given to the child's CW worker at child's discharge. Original is filed in the CW case and a copy accompanies the child to the next placement.

A copy is retained in the contractor's file for the child.
