

Purpose of Form

Form 04AN016E is used by social services staff and district court clerks to facilitate the putative father's registration on the Centralized Paternity Registry (CPR). This registration allows him to acknowledge or file intent to acknowledge paternity, but does not in itself legally establish paternity or child support. This CPR is in compliance with 10 O.S. 7506-1.1.

Instructions

Only the original form is prepared. The putative father completes Section A, B, and C as appropriate to register on the CPR or update a previous registration. A district court clerk must submit this form at the time of adjudication of a man as a legal father.

The information requested on the form is self-explanatory. The father or court clerk signs and dates the form.

Routing

The form is submitted to Oklahoma Department of Human Services (OKDHS) at the address listed on the bottom of the form.
