

### Purpose of form

Form 04IL007E is used to document an eligible youth's request for independent living (IL) services after the youth has exited out-of-home placement. These services focus on education, career planning, emergency housing, and aftercare assistance and complement the youth's own efforts to achieve self-sufficiency. In addition, these services promote the youth's ability to recognize and accept personal responsibility for the transition from out-of-home care to adulthood.

### Instructions

The designee established by the Children and Family Services Division (CFSD) IL coordinator completes Form 04IL007E with input from the youth requesting the service(s).

### Routing

The completed form is forwarded to the CFSD IL coordinator. After receipt of the request, eligibility is determined and the request is assigned for case management.
