

### Purpose of form

Form 04AF003E is used in conjunction with Form 04AF002E, Guidelines for Resource Family Assessment. This form has expandable typing fields to assist the resource specialist in efficiently preparing the assessment.

### Instructions

The resource specialist completes the appropriate information required under each heading on the outline. The information is gathered through pre-service training and interviews conducted by the resource specialist, and other written and verbal documentation. The final assessment is shared with the family for their input prior to their decision to select into or out of the program. A copy of the assessment, except the verification and references sections, is provided to the family.

### Routing

Original - resource record  
Copy - resource family
