

Purpose of form

The form may be used by the examining physician to report findings of the physical examination which is required:

- for staff of family child care homes.
- at the time of employment for Child Placing Agency staff.
- at the time of employment, for staff of child care institutions.

Instructions

The form is prepared in duplicate by the examining physician and may be used by the health authority to report finding as a result of a tuberculin test and/or chest x-ray which is required for:

- child care center staff.
- emergency shelter staff.
- child care institution staff.

Use of the form is optional; if the physician prefers, he may use his own report form or a narrative report made on his own letterhead.

Routing

The examining physician completes the form and returns both copies to the patient who submits them to the appropriate licensing services worker.

Original - maintained by the child care facility
Copy - Local Licensing Service record
