SUBJECT: MANUAL MATERIAL

OAC 317:30-5-95.33 and 30-5-356.

EXPLANATION: Policy revisions were approved by the Board and the Governor as required by the Administrative Procedures Act.

Inpatient Psychiatric Hospital rules are revised to allow for review of individual plans of care in an inpatient setting no less than every nine calendar days in acute care situations and no less than every 16 calendar days in the longer term treatment program or specialty Psychiatric Residential Treatment Facility.

Rural Health Clinic rules are revised to eliminate the age and gender restrictions for SoonerCare members who are eligible to receive family planning services. The revision also brings policy into current practice of payment based on fee-for-service rather than an encounter basis.

INSTRUCTIONS FOR FILING MANUAL MATERIAL

OAC is the acronym for Oklahoma Administrative Code. If OAC appears before a number on an Appendix or before a Section in text, it means the Appendix or text contains rules or administrative law. Lengthy internal policies and procedures have the same Chapter number as the OAC Chapter to which they pertain following an "OKDHS" number, such as personnel policy at OKDHS:2-1 and personnel rules at OAC 340:2-1. The "340" is the Title number that designates OKDHS as the rulemaking agency; the "2" specifies the Chapter number; and the "1" specifies the Subchapter number.

The chronological order for filing manual material is: (1) OAC 340 by designated Chapter and Subchapter number; (2) if applicable, OKDHS numbered text for the designated Chapter and Subchapter; and (3) all OAC Appendices with the designated Chapter number. For example, the order for filing personnel policy is OAC 340:2-1, OKDHS:2-1, and OAC 340:2 Appendices behind all Chapter 2 manual material. Any questions or assistance with filing manual material will be addressed by contacting Policy Management Unit staff at 405-521-4326.

317:30-5-95.33. Individual plan of care for children
(a) The following words and terms, when used in this section, shall have the following meaning, unless the context clearly indicates otherwise:

   (1) "Licensed Behavioral Health Professional (LBPH)" means licensed psychologists, licensed clinical social workers (LCSW), licensed marital and family therapists (LMFT), licensed professional counselors (LPC), licensed behavioral practitioners (LBP), and advanced practice nurses (APN).
   (2) "Individual plan of Care (IPC)" means a written plan developed for each member within four calendar days of any admission to a PRTF and is the document that directs the care and treatment of that member. The individual plan of care must be recovery focused, trauma informed, and specific to culture, age and gender and includes:
      (A) the complete record of the DSM-IV-TR five-axis diagnosis, including the corresponding symptoms, complaints, and complications indicating the need for admission;
      (B) the current functional level of the individual;
      (C) treatment goals and measurable time limited objectives;
      (D) any orders for psychotropic medications, treatments, restorative and rehabilitative services, activities, therapies, social services, diet and special procedures recommended for the health and safety of the patient;
      (E) plans for continuing care, including review and modification to the plan of care; and
      (F) plan for discharge, all of which is developed to improve the child's condition to the extent that the inpatient care is no longer necessary.

(b) The individual plan of care:
   (1) must be based on a diagnostic evaluation that includes examination of the medical, psychological, social, behavioral and developmental aspects of the individual member and reflects the need for inpatient psychiatric care;
   (2) must be developed by a team of professionals as specified in OAC 317:30-5-95.35 in collaboration with the member, and his/her parents for members under the age of 18, legal guardians, or others in whose care he/she will be released after discharge;
   (3) must establish treatment goals that are general outcome statements and reflective of informed choices of the member served. Additionally, the treatment goal must be appropriate to the patient's age, culture, strengths, needs, abilities, preferences and limitations;
   (4) must establish measurable and time limited treatment
objectives that reflect the expectations of the member served and parent/legal guardian (when applicable) as well as being age, developmentally and culturally appropriate. When modifications are being made to accommodate age, developmental level or a cultural issue, the documentation must be reflected on the individual plan of care. The treatment objectives must be achievable and understandable to the member and the parent/guardian (when applicable). The treatment objectives also must be appropriate to the treatment setting and list the frequency of the service;

(5) must prescribe an integrated program of therapies, activities and experiences designed to meet the objectives;

(6) must include specific discharge and after care plans that are appropriate to the member's needs and effective on the day of discharge. At the time of discharge, after care plans will include referral to medication management, out-patient behavioral health counseling and case management to include the specific appointment date(s), names and addresses of service provider(s) and related community services to ensure continuity of care and reintegration for the member into their family school, and community;

(7) must be reviewed no less than every nine calendar days when in acute care and a regular PRTF and no less than every 16 calendar days in the OHCA approved longer term treatment programs or specialty PRTF treatment programs by the team specified to determine that services are being appropriately provided and to recommend changes in the individual plan of care as indicated by the member's overall adjustment, progress, symptoms, behavior, and response to treatment;

(8) development and review must satisfy the utilization control requirements for physician re-certification and establishment of periodic reviews of the individual plan of care; and,

(9) each individual plan of care review must be clearly identified as such and be signed and dated individually by the physician, LBHP, member, parent/guardian (for patients under the age of 18), registered nurse, and other required team members. Individual plans of care and individual plan of care reviews are not valid until completed and appropriately signed and dated. All requirements for the individual plan of care or individual plan of care reviews must be met or a partial per diem recoupment will be merited. In those instances where it is necessary to fax an Individual Plan of Care or Individual Plan of Care review to a parent or OKDHS/OJA worker for review, the parent and/or OKDHS/OJA worker may fax back their signature. The Provider must obtain the original signature for the clinical
file within 30 days. Stamped or Xeroxed signatures are not allowed for any parent or member of the treatment team.
317:30-5-356. Coverage for adults

Payment is made to rural health clinics for adult services as set forth in this Section.

(1) RHC services. Payment is limited to four visits per member per month. Refer to OAC 317:30-1, General Provisions, and OAC 317:30-3-65.2 for exceptions to this limit for children under the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT). Additional preventive service exceptions include:

(A) Obstetrical care. A Rural Health Clinic should have a written contract with its physician, nurse midwife, advanced practice nurse, or physician assistant that specifically identifies how obstetrical care will be billed to SoonerCare, in order to avoid duplicative billing situations. The agreement should also specifically identify the physician's compensation for rural health and non-rural health clinic (other ambulatory) services.

(i) If the clinic compensates the physician, nurse midwife or advanced practice nurse to provide obstetrical care, then the clinic must bill the SoonerCare program for each prenatal visit using the appropriate CPT evaluation and management codes.

(ii) If the clinic does not compensate its practitioners to provide obstetrical care, then the independent practitioner must bill the OHCA for prenatal care according to the global method described in the SoonerCare provider specific rules for physicians, certified nurse midwives, physician assistants, and advanced practice nurses (refer to OAC 317:30-5-22).

(iii) Under both billing methods, payment for prenatal care includes all routine or minor medical problems. No additional payment is made to the prenatal provider except in the case of a major illness distinctly unrelated to pregnancy.

(B) Family planning services. Family planning services are available only to members with reproductive capability. Family planning visits do not count as one of the four RHC visits per month.

(2) Other ambulatory services. Services defined as "other ambulatory" services are not considered a part of a RHC visit and are therefore billable to the SoonerCare program by the RHC or provider of service on the appropriate claim forms. Other ambulatory services are subject to the same scope of coverage as other SoonerCare services billed to the program, i.e., limited
adult services and some services for under 21 subject to same prior authorization process. Refer to OAC 317:30-1, General Provisions, and OAC 317:30-3-57, 317:30-5-59, and 317:30-3-60 for general coverage and exclusions under the SoonerCare program. Some specific limitations are applicable to other ambulatory services as set forth in specific provider rules and excerpted as follows: Coverage under optometrists for adults is limited to treatment of eye disease not related to refractive errors. There is no coverage for eye exams for the purpose of prescribing eyeglasses, contact lenses or other visual aids. (See OAC 317:30-5-431)
