Child Welfare Services

2016
Developed to Serve Families

Life can sometimes be like a crossword puzzle. Every little square is filled with the right words and letters. No challenges, just comfortable and cozy. Then, before you know it, something challenging comes up. Situations that just do not seem to fit into the little squares of life. Does that sound a lot like an everyday family setting? Sometimes family life is smooth, and sometimes there are scenarios that just don’t seem to fit the master plan. Should this happen, locating services and providers of services can often be overwhelming and time-consuming.

This Statewide Directory has been compiled to serve you (our forever families) when life's struggles arise, no matter where you live. Whether you are in a metropolitan or rural area, our desire is to give you effective tools to help you find the resources you need. Prescription assistance, clothing or food vouchers, counseling or mental health services are just a few of the services you will find within the pages of this directory. We found providers who are more than excited to let you know they have services that can help reduce some of life's stressors.

Post Adoptions would like to thank the Post Adoption Advisory Committee, chairperson, and the entire Post Adoption staff as we would not have completed this directory without you.

We especially appreciate Shelia Milsap and Jazmine Berry who worked tirelessly to make this directory a reality!
